About us

Un'common | Furniture made of marble

Un'common is a Polish furniture brand founded by Gosia Korycka and Maciek Korycki in Łódź, Poland.

Every day we carefully observe the world wanting to enrich it with beautiful, functional and timeless objects. Our furniture should not only be well-designed – it should be a feast for the senses. Nothing can produce this effect quite as good as marble.

It is a beautiful, refined, natural material that has been used for centuries in architecture, art and everyday life. There are many different stone quarries, offering different types and colours of marble. However, because it is a natural material formed in a very complex process, it is virtually impossible to extract two identical pieces of stone. In our opinion, in a world ruled by plastic and mass production, this thrill of surprise is a bit of genuine luxury, reserved only for natural materials and their enthusiasts.

During Maison et Objet 2022 we are glad to present our latest collection EDGE. In the new products you will find 2 completely new types of marble: Calacatta Viola with its characteristic light maroon veins and Rosso Levanto with its beautiful burgundy colour with white strong veins. In addition, for fans of the classics, the collection will also include brushed white Carrara. When designing our collections, we always start with stone as our material. In that case, the marble tops of our furniture will have raw, slightly rough edges and that is where the name of the EDGE collection is derived from. We change the way of thinking about stone as a material with an impeccable shine, finished with a classic bevel. Unpolished edges remind us of the true, natural origin of the stone.
